

CRICKSTATS

8. Project Demonstration Phase

Demonstration Flow

- Open CRICKSTATS Salesforce Application
- Show Players
- Show Player records and details
- Show Match Performances
- Enter or display match performance
- Show Roll-up Summary calculations
- Open Player Flow
- Select a Team
- Display player information in the Data Table
- Show Reports
- Show Dashboards
- Explain the overall working of CRICKSTATS
- Show final output/results

Project Demonstration Focus

The demonstration should show the complete working flow of the CRICKSTATS application from player and match data entry through statistics calculation, Flow-based player selection, reports and dashboard visualization.
